CTO, Architect, InfoQ Fr Editor
Founder & Organiser of Riyadh IT Architecture Meetup
Big Data Science, Cloud & SOA Certified Trainer
Togaf, Archimate, IT4IT, SABSA, PMP, Cmmi, ITIL

Summary

Slim Ouertani is enterprise and solution architect, InfoQ-Fr editor, Big Data Science, Cloud and SOA Certified trainer , founder and organizer of Riyadh IT Architecture Meetup. After his engineer's degree in computer science, Slim spent over than 10 years in multinational companies such as Orange, Sagem and STMicroelectronics as architect, international agile coach and Head of IT development department. His main role was to build, design and collaborate in the development of enterprise solutions.

Slim regularly contributes to InfoQ-FR community where he is the author of many articles and news.

He's broad certified as in addition to his SOA, Cloud and Big Data Science certifications: Trainer, Architect & Engineer, Slim holds multiple certifications including Togaf 9, Archimate 2, IT4IT, SABSA, PMP, ITIL, CMMi, Mongo, Spring, JAVA, SCALA and reactive programming...

Trained as an architect, Slim specializes in enterprise Java development, functional programming focusing on highly scalable applications and now expanding his experience to cloud computing.

Slim enjoys open source contribution and invite you to follow him on twitter @ouertani.
